

I was informed that the FCC is threatening to take KLOVE off the air. When I heard this information, I was shocked! I don't understand why other radio broadcasts can talk trashy, and play crude music, and yet a radio station that offers help to those who need it, and gives them encouraging words to live by, is being taken off the air. This station has helped me tremendously in my daily walk with my LORD and SAVIOR, JESUS CHRIST. Without HIM, and His followers who bring His message to every person who has ears to hear, I would be lost. I would sink into this cruel world, and have no guidance, especially to the ONE who has created me, and who loves me. Without GOD, and His people who have the desire to reach out for those in need, then this world is going to crumble and fall apart. Especially AMERICA! We were founded on GOD, when we became a country, and now even that is being taken away. I pray for America, because we have lost all our morals, and what we stand for. Especially, what makes us different from all the other countries! We are falling apart fast, and if we don't stand up for what is right, and allow Christians to speak the truth, then YOU are making the biggest mistake of all times. I pray for your soul, and what you are doing to this remarkable KLOVE radio broadcast. I don't receive any other means of Christian music here where I live. So I am only able to get it through the Internet! Without that, you are depriving me of my choices. I refuse to listen to the local broadcasts, because of how foul they are, and what they are about!

Sincerely,

A single 22 year old, who is striving to make it through college, and keeping my Christian Walk strong in the LORD,
Crystal
